PeopleSoft Self Service Applications

PeopleSoft Self-Service Human Resources allows your workforce to update and use employee specific Information, online via **CUNYfirst**, that is personalized to an individual's role, experience, work content, language, and information needs. By allowing managers and employees to access and manage information and transactions in a paperless environment, you can streamline business processes, decrease costs, and improve service. With managers and employees empowered to update and maintain their own information. Communication between manager, employee, and HR is faster and more efficient.

Manager Self Service (MSS) is a tool for managers to manage their employee's job specific data.
Employee Self Service (ESS) allows employees to view and change their personal data.

PeopleSoft Manager Self-Service (MSS)

PeopleSoft Manager Self Service (MSS) allows the manager to view a variety of information for the employees who report to them. This guide will step through the following items:
